DOCUMENT CONTROL

Item	Details
Document Title	MetroPaws Digital Wellness Platform Framework
Document Number	MMS-DWP-001
Revision	Rev. 1
Document Owner	Chief Executive Officer
Approver	Chief Executive Officer / Board or Shareholders
Review Frequency	Annual, or sooner when the app, membership benefits, pricing, reimbursement rules, PawPoints rules, privacy requirements, or commercial model changes
Distribution	Controlled copies for CEO, Technology, Operations, Customer Service, Finance, DPO, Marketing, Business Development, and approved app development partners

This manual defines the controlled business framework for the MetroPaws Digital Wellness Platform. It translates the MetroPaws membership model into official rules for the app, Digital Pet Passport, Wellness Benefit Wallet, claims and reimbursement, direct benefit vouchers, PawPoints, community access, dashboards, fraud controls, and member value communication.

This document is intended for corporate governance, app development alignment, operations execution, member support, financial controls, and future audits. It shall be read together with MMS-001, MMS-FRM, MMS-COM, MMS-OPS, MMS-PAP, the Company Profile, Membership Terms, and applicable privacy controls.

Revision History

EXECUTIVE OVERVIEW

MetroPaws is a membership-based preventive pet wellness ecosystem. The Digital Wellness Platform is the operating backbone that allows members to manage pet records, understand available benefits, submit claims, receive reimbursements, earn PawPoints, receive wellness reminders, and participate in the MetroPaws community.

The platform supports a hybrid growth strategy. While MetroPaws develops its accredited partner network, members may still receive value through controlled wellness credits, cashback, or reimbursement benefits for services availed from preferred clinics, grooming salons, and pet care providers. Once partner rates are negotiated, the platform can add partner-enhanced benefits and direct voucher redemption.

The platform shall never be positioned as insurance, an HMO, or a veterinary service provider. It is a pet wellness membership and benefits administration platform.

Core Platform Model

Stakeholder	Role in Platform
Member	Registers, manages pets, views benefits, submits claims, earns PawPoints, receives reminders, and accesses the community.
MetroPaws	Administers membership, benefits, claims, reimbursements, PawPoints, dashboards, member support, and governance.
Provider / Partner	Provides pet care services. Accredited partners may receive enhanced visibility, preferred listing, QR verification, and future partner-specific benefits.
App / Dashboard	Tracks membership status, pet passport, wallet balances, claims status, reimbursements, PawPoints, utilization, and management KPIs.

PART I - PLATFORM GOVERNANCE AND COMMERCIAL MODEL

MMS-DWP-001 Digital Wellness Platform Framework

Section 1: Purpose and Scope

Purpose. To define the intent and coverage of the MetroPaws Digital Wellness Platform.

Policy. MetroPaws shall operate the platform as a controlled membership, pet wellness, claims, reimbursement, rewards, and engagement system that supports proactive pet care and responsible pet ownership.

Minimum Requirements

- The platform shall cover membership, pet profiles, Digital Pet Passport, benefit wallet, claims, reimbursement, PawPoints, community access, dashboards, and reporting.
- The platform shall be aligned with the MetroPaws preventive wellness strategy.
- Detailed screen designs shall be controlled in a separate Software Requirements Specification.

Controls and Responsibilities

- CEO owns business model and platform direction.
- Technology implements approved functionality.
- Operations owns workflows and member support.
- Finance controls reimbursement and benefit fund monitoring.

Related Records / References

- MMS-001
- MMS-OPS
- MMS-FRM
- Software Requirements Specification

Section 2: Non-Insurance Positioning

Purpose. To prevent confusion between MetroPaws membership benefits and insurance coverage.

Policy. MetroPaws shall communicate its program as a membership-based wellness benefits and engagement platform, not as insurance, HMO, or veterinary service delivery.

Minimum Requirements

- Member communications shall use terms such as wellness benefits, wellness credits, cashback, reimbursement, vouchers, PawPoints, and member privileges.
- Marketing shall avoid claims of guaranteed medical coverage, indemnity, or unlimited medical insurance.
- Terms shall state that benefits are subject to program rules, membership status, limits, documentation, and availability.

Controls and Responsibilities

- CEO approves positioning language.
- Marketing and Customer Service use only approved explanations.
- DPO and Finance review privacy and financial claims wording where relevant.

Related Records / References

- Membership Terms
- MMS-COM
- Legal and Compliance Register

Section 3: Hybrid Benefit Model

Purpose. To allow MetroPaws to create member value while the accredited partner network is still developing.

Policy. MetroPaws may operate a hybrid model combining non-partner reimbursement benefits, wellness credits, direct benefit vouchers, and partner-enhanced benefits.

Minimum Requirements

- Non-partner claims shall require proof of transaction and controlled validation.
- Partner-enhanced benefits may include higher cashback, direct vouchers, special pricing, PawPoints multipliers, or priority visibility.
- Hybrid rules shall be reviewed based on utilization, margin, partner growth, and member feedback.

Controls and Responsibilities

- CEO approves hybrid model.
- Finance monitors financial exposure.
- Operations validates claims workflow.
- Business Development uses utilization data for partner acquisition.

Related Records / References

- Benefit Rules Matrix
- Claims Register
- Provider Utilization Report
- Partner Prospect List

Section 4: Member Benefit Fund Governance

Purpose. To control financial exposure from reimbursements, wellness credits, vouchers, and PawPoints rewards.

Policy. MetroPaws shall maintain a controlled benefit fund or reserve allocation for approved member benefits.

Minimum Requirements

- Benefit fund balance, pending claims, paid claims, voucher liabilities, PawPoints liability, and projected utilization shall be monitored.
- Benefit caps shall be designed conservatively until actual utilization data is available.
- New benefit categories shall require Finance review and CEO approval.

Controls and Responsibilities

- Finance owns benefit fund reporting.
- CEO approves fund allocation and program changes.
- Operations submits claims and utilization data.

Related Records / References

- Benefit Fund Register
- Claims Payable Report
- PawPoints Liability Register
- Management Review Minutes

PART II - MEMBERSHIP PLANS AND VALUE PROPOSITION

MMS-DWP-001 Digital Wellness Platform Framework

Section 5: Membership Value Proposition Framework

Purpose. To define how MetroPaws membership value shall be communicated to prospective members, customers, partners, employees, and future franchisees.

Policy. MetroPaws shall not position itself solely as a discount program. It shall be presented as a preventive pet wellness ecosystem that combines financial benefits, digital pet management tools, rewards, reminders, community access, and premium member experiences.

Official Member Value Statement

MetroPaws helps responsible pet owners care for their pets through wellness benefits, digital pet management tools, rewards, reminders, community engagement, and premium member experiences designed to support healthier and happier pets.

Member Value Pillars

- Wellness Benefits - vaccination, consultation, grooming, emergency care assistance, laboratory savings, wellness credits, cashback, and promotional benefits.
- Digital Pet Wellness Tools - Digital Pet Passport, pet wellness records, vaccination tracking, grooming history, wellness reminders, and app-based pet profile management.
- PawPoints Rewards - engagement points earned through membership activity, renewals, referrals, claims, events, and future reward programs.
- Community Access - educational content, events, wellness campaigns, pet parent community, member activities, and responsible pet ownership initiatives.
- Premium Member Experience - priority support, concierge assistance, VIP events, recognition, and enhanced member privileges.

Customer Communication Principle

- Lead with the outcome, then show the numbers.
- Explain what the benefit means for the pet and the owner before stating the discount, cap, or quantity.
- Avoid making MetroPaws sound like a discount card.
- Use the sequence: wellness outcome -> specific benefit -> numeric entitlement -> terms and limitations.

Section 6: Membership Plan Positioning

Plan	Website Positioning	Commercial Role	Primary Audience
Standard - PHP 2,999/year	Smart Pet Parenting Starts Here	Entry-level wellness membership with essential benefits and digital tools	Responsible pet owners who want organized preventive care
Deluxe - PHP 5,999/year	The Complete Preventive Care Membership	Main value plan and most popular offer	Active pet parents who want enhanced wellness support
Premium - PHP 10,999/year	The Premier Pet Parenting Membership	Aspirational and convenience-driven plan	A/B market pet owners seeking priority support, prestige, and peace of mind

Section 7: Website Benefit Wording Standard

Purpose. To ensure website plan cards use consistent benefit-first wording while still providing clear numbers to customers.

Policy. MetroPaws website plan cards shall combine emotional value, functional value, and numerical benefit details. Benefits shall be written as member privileges, not as isolated discounts.

Current Style	Approved Rephrasing
2 Consultations per year	Professional Veterinary Care - Includes up to 2 consultations annually
Annual Vaccines	Annual Preventive Protection - Annual vaccination package with deworming and kennel cough coverage
15% off Grooming	Grooming Privileges - Enjoy up to 15% member savings on grooming services
10% off Laboratory	Laboratory Savings - Enjoy up to 10% member savings on laboratory services
Unlimited consultations	Unlimited Veterinary Consultation Privileges - Year-round consultation access subject to program terms
CBC Blood Test	Annual Diagnostic Wellness Screening - Includes CBC Blood Test package

- MetroPaws VIP Community Access - Priority invitations to MetroPaws events, campaigns, and exclusive activities
- Concierge Member Support - Priority assistance and premium member service
- Founder Circle Recognition - Exclusive recognition as one of MetroPaws premier members

Section 9: Why Join MetroPaws Website Lead-In

The following content shall be placed above the website pricing cards where practicable:

- Save on essential pet wellness expenses
- Keep pet health records organized with the Digital Pet Passport
- Receive vaccination, grooming, and wellness reminders
- Earn PawPoints rewards and member privileges
- Access the MetroPaws pet wellness community

- Give pets a longer, healthier, and happier life

PART III - DIGITAL PET PASSPORT AND PET WELLNESS TOOLS

MMS-DWP-001 Digital Wellness Platform Framework

Section 10: Member Registration and Activation

Purpose. To define how members enter the Digital Wellness Platform.

Policy. Members shall register, accept membership terms, provide required information, submit privacy consent, and complete payment before membership activation.

Minimum Requirements

- Membership number shall be generated upon activation.
- Plan, expiry, pet profiles, benefit wallet, and PawPoints starting rules shall be assigned according to approved configuration.
- Duplicate accounts shall be checked where practicable.

Controls and Responsibilities

- Operations controls activation.
- Finance confirms payment.
- Technology configures plan rules.

Related Records / References

- Membership Register
- Data Privacy Consent
- Payment Confirmation Records

Section 11: Digital Pet Passport

Purpose. To maintain an organized wellness record for each registered pet.

Policy. Each active member may maintain a Digital Pet Passport containing pet identity, vaccination history, deworming schedule, grooming records, vet visit records, wellness notes, and uploaded documents.

Minimum Requirements

- The Digital Pet Passport is not a substitute for official veterinary medical records.
- Members are responsible for accuracy of self-entered information.
- Partner-submitted records may be enabled in future releases.

Controls and Responsibilities

- Operations defines fields.
- Technology implements the module.
- DPO reviews sensitive data fields.

Related Records / References

- Pet Profile Records
- Pet Passport Records
- Data Privacy Consent

Section 12: Wellness Reminder System

Purpose. To encourage preventive pet wellness behavior.

Policy. The platform shall provide reminders for vaccines, deworming, grooming, annual checkups, tick and flea care, pet birthdays, and other approved wellness activities.

Minimum Requirements

- Reminders are advisory and do not replace veterinary advice.
- Members may update reminder dates where allowed.
- Reminder rules shall be reviewed periodically.

Controls and Responsibilities

- Operations defines reminder logic.
- Technology implements notifications.
- Customer Service assists members.

Related Records / References

- Wellness Reminder Log
- Notification Records
- Member Support Logs

Section 13: Wellness Content and Education

Purpose. To support responsible pet ownership through approved content.

Policy. MetroPaws may publish pet wellness tips, educational posts, event notices, and preventive care reminders through the app, website, email, or community channels.

Minimum Requirements

- Content shall be general and educational.
- Clinical claims shall be reviewed when necessary.
- Content shall not diagnose or prescribe treatment.

Controls and Responsibilities

- Marketing manages content.
- Operations reviews relevance.
- CEO approves sensitive topics.

Related Records / References

- Content Calendar
- MMS-COM
- Marketing Review Records

PART IV - WELLNESS BENEFITS, CLAIMS, REIMBURSEMENTS AND VOUCHERS

MMS-DWP-001 Digital Wellness Platform Framework

Section 14: Wellness Benefit Wallet

Purpose. To track benefit balances and utilization.

Policy. The platform shall maintain a Wellness Benefit Wallet showing available, pending, consumed, and remaining benefits by plan and category.

Minimum Requirements

- Wallet balances shall follow approved benefit rules.
- Utilization shall update automatically after claim approval or voucher redemption.
- Members shall be able to view remaining benefits.

Controls and Responsibilities

- Technology implements wallet logic.
- Operations validates business rules.
- Finance reviews financial exposure.

Related Records / References

- Benefit Wallet Ledger
- Benefit Rules Matrix
- Utilization Dashboard

Section 15: Claims and Reimbursement Workflow

Purpose. To define how members claim cashback or reimbursement benefits.

Policy. Members may submit eligible claims by uploading proof of transaction through the app for review and approval.

Minimum Requirements

- Required fields include provider name, date, amount, category, pet, receipt or invoice, and proof of payment where applicable.
- Claims shall be checked against active membership, category rules, remaining balance, duplicates, and documentation quality.
- Approved claims shall be paid through approved channels and recorded against the benefit fund.

Controls and Responsibilities

- Operations reviews claims.
- Finance releases payment.
- Technology tracks status and documents.

Related Records / References

- Claims Register
- Payment Register
- Rejected Claims Log

Section 16: Direct Benefit and Voucher Workflow

Purpose. To define benefits where MetroPaws pays the provider directly.

Policy. For selected categories such as vaccines, deworming campaigns, wellness days, or partner programs, MetroPaws may issue a voucher or QR benefit for direct redemption.

Minimum Requirements

- Direct benefits shall be used only where cost can be controlled.
- Where no partner rate exists, direct benefits shall be capped or offered as wellness credit instead of full retail payment.
- Provider completion proof shall be required before payment where applicable.

Controls and Responsibilities

- CEO approves direct benefit programs.
- Finance reviews cost and fund exposure.
- Operations manages voucher issuance and redemption.
- Business Development coordinates partner terms.

Related Records / References

- Voucher Register
- Provider Payment Register
- Benefit Redemption Log

Section 17: Benefit Cost and Margin Control

Purpose. To protect MetroPaws financial sustainability.

Policy. MetroPaws shall not promise benefits whose cost cannot be controlled or forecasted. Retail-cost benefits shall be capped, funded, monitored, and reviewed before launch.

Minimum Requirements

- Benefit design shall consider actual cost, perceived value, expected utilization, adverse selection, and reserve adequacy.
- Premium benefits shall combine wellness value with low-cost high-perceived-value features such as priority support, recognition, events, digital tools, and concierge service.
- Utilization trends shall be reviewed monthly during launch period.

Controls and Responsibilities

- Finance owns cost review.
- CEO approves pricing and benefit changes.
- Operations reports utilization.

Related Records / References

- Membership Value Engine
- Benefit Fund Register
- Monthly Utilization Report

Section 18: Fraud and Abuse Controls

Purpose. To prevent misuse of claims, vouchers, PawPoints, and member benefits.

Policy. MetroPaws shall maintain controls against duplicate receipts, altered documents, false claims, excessive utilization, account sharing, and suspicious provider patterns.

Minimum Requirements

- Duplicate detection shall be performed manually or automatically.
- Suspicious claims may be held for review.
- Confirmed abuse may lead to rejection, suspension, forfeiture, or other appropriate action.

Controls and Responsibilities

- Operations screens claims.
- Finance reviews financial anomalies.
- CEO approves serious actions.

Related Records / References

- Fraud Red Flag Log
- Incident Reports
- Suspension Records

PART V - PAWPOINTS, COMMUNITY ACCESS AND DASHBOARDS

MMS-DWP-001 Digital Wellness Platform Framework

Section 19: PawPoints Rewards Program

Purpose. To create loyalty, engagement, and recognition beyond discounts.

Policy. PawPoints shall be administered as a member engagement and rewards program. PawPoints are not cash unless a specific approved conversion program is established.

Minimum Requirements

- Earning rules may include membership activation, renewal, referrals, claims, events, profile completion, and campaigns.
- Redemption shall be limited to approved rewards, merchandise, promotions, recognition items, partner offers, or future benefits.
- PawPoints issuance, adjustment, redemption, expiry, and liability shall be tracked.

Controls and Responsibilities

- Operations administers PawPoints.
- Finance monitors liability.
- Marketing proposes campaigns.
- Technology implements the ledger.

Related Records / References

- PawPoints Ledger
- PawPoints Rules Matrix
- PawPoints Liability Register

Section 20: Community Access

Purpose. To build member loyalty and trust through community engagement.

Policy. MetroPaws may provide community access through Facebook groups, events, wellness seminars, pet meetups, adoption support, responsible pet ownership campaigns, app features, and member communications.

Minimum Requirements

- Community rules shall be moderated.
- Unauthorized medical advice, harassment, spam, and misinformation shall be controlled.
- Community engagement may qualify for PawPoints where approved.

Controls and Responsibilities

- Marketing manages community engagement.
- Customer Service supports member concerns.
- CEO approves sensitive public activities.

Related Records / References

- Community Guidelines
- Event Records
- Community Incident Log

Section 21: Member Dashboard

Purpose. To give members visibility over their account and pet wellness journey.

Policy. The member dashboard shall display membership status, Digital Pet Pass, pet profiles, benefit wallet, claims status, PawPoints, reminders, and community links.

Minimum Requirements

- Members shall see only their own data.
- Dashboard information shall be clear and understandable.
- Expired or suspended accounts shall display accurate status.

Controls and Responsibilities

- Technology develops dashboard.
- Operations validates content.

- DPO reviews privacy controls.

Related Records / References

- Member Dashboard Records
- User Access Matrix
- Data Privacy Consent

Section 22: Admin and Financial Dashboard

Purpose. To provide management control and decision data.

Policy. MetroPaws shall maintain dashboards for active members, claims, reimbursements, utilization, benefit fund status, PawPoints, provider trends, support tickets, and financial exposure.

Minimum Requirements

- Dashboard access shall be role-based.
- Financial dashboard shall track fund balance, pending claims, paid claims, projected liability, and utilization rate.
- Provider utilization data shall support partner acquisition.

Controls and Responsibilities

- CEO reviews executive dashboard.
- Operations monitors claims and service levels.
- Finance monitors cost and fund data.
- Business Development reviews provider data.

Related Records / References

- Admin Dashboard
- Financial Dashboard
- Provider Utilization Report
- KPI Monitoring Sheet

PART VI - TECHNOLOGY, PRIVACY AND IMPLEMENTATION ROADMAP

MMS-DWP-001 Digital Wellness Platform Framework

Section 23: Data Privacy and Information Security

Purpose. To protect personal, pet, claims, payment, and platform data.

Policy. MetroPaws shall process platform data lawfully, fairly, securely, and only for approved business purposes. Access shall be controlled based on role and need.

Minimum Requirements

- Privacy notices and consent shall be obtained where required.
- Claims attachments and payment information shall be protected.
- Security incidents shall be logged and investigated.

Controls and Responsibilities

- DPO owns privacy oversight.
- Technology implements security controls.
- Operations follows data handling rules.

Related Records / References

- Data Privacy Consent
- User Access Matrix
- Incident Register

Section 24: Software Requirements Specification

Purpose. To translate this framework into app development requirements.

Policy. MMS-DWP-001 defines business and control requirements. A separate Software Requirements Specification shall define screens, fields, user stories, database rules, integrations, acceptance criteria, and testing requirements.

Minimum Requirements

- No app feature affecting benefits, claims, payments, PawPoints, or privacy shall be built without approved business rules.
- Changes shall be controlled through a change request and testing process.
- Major releases require CEO approval.

Controls and Responsibilities

- Technology owns the SRS.
- Process owners validate requirements.
- CEO approves business-critical releases.

Related Records / References

- Software Requirements Specification
- Change Request Log
- Testing Records

Section 25: MVP Launch Roadmap

Purpose. To prioritize launch features and avoid unnecessary complexity.

Policy. The initial MVP shall focus on membership, pet profiles, Digital Pet Pass, benefit wallet, claims submission, manual validation, reimbursement tracking, PawPoints ledger, reminders, and admin dashboard.

Minimum Requirements

- AI receipt validation, booking, social feed, full partner portal, marketplace, and advanced automation may be deferred.
- Pilot testing shall be conducted before full rollout.
- Pilot results shall inform benefit rules and app improvements.

Controls and Responsibilities

- CEO approves launch scope.
- Technology builds MVP.
- Operations conducts pilot testing.

- Finance monitors cost exposure.

Related Records / References

- MVP Roadmap
- Pilot Test Report
- Launch Checklist

APPENDICES

MMS-DWP-001 Digital Wellness Platform Framework

APPENDIX A - MEMBERSHIP VALUE ENGINE SUMMARY

Plan	Revenue	Primary Value	Cost Control Principle
Standard	PHP 2,999/year	Essential wellness tools, basic benefits, community, reminders	Low direct benefit exposure; high digital value
Deluxe	PHP 5,999/year	Balanced wellness benefits, grooming, consultations, enhanced support	Monitor utilization and cap high-cost benefits
Premium	PHP 10,999/year	Premier pet parenting experience with convenience, priority, emergency support, recognition	Combine service benefits with low-cost high-perceived-value privileges

APPENDIX B - BENEFIT MECHANISM TYPES

Mechanism	Best Used For	How It Works	Control
Wellness Credit	No partners yet / any provider model	Member pays provider, submits receipt, MetroPaws reimburses approved amount up to cap	Caps and documentation
Cashback / Reimbursement	Consults, grooming, lab discounts, flexible categories	System calculates approved percentage or fixed amount after validation	Wallet balance and claim review
Direct Voucher	Vaccines, deworming, campaigns, partner events	Member redeems QR or voucher, MetroPaws pays provider directly	Only where cost is controlled
Partner-Enhanced Benefit	Accredited partners	Higher cashback, exclusive benefit, PawPoints multiplier or direct redemption	Partner agreement and rate sheet

APPENDIX C - CLAIMS WORKFLOW

- Member pays provider directly for eligible service.
- Member uploads receipt, invoice, proof of payment, provider name, service category, date, and amount.
- System checks membership status, category rules, remaining wallet balance, and duplicate indicators.
- Operations validates documentation and approves or rejects claim.
- Finance releases reimbursement through approved payment channel.
- Benefit wallet, PawPoints, utilization dashboard, and provider intelligence update automatically.

APPENDIX D - APP MVP MODULES

Module	MVP Requirement
Membership	Registration, plan activation, renewal status, digital membership card
Pet Profile	Pet identity, wellness notes, vaccination and grooming records
Digital Pet Passport	Wellness timeline and document uploads
Benefit Wallet	Available, pending, consumed, and remaining benefit balances
Claims	Upload proof, claim status, approval, rejection, payment tracking
PawPoints	Points earned, adjusted, redeemed, expired, balance
Reminders	Vaccination, deworming, grooming, checkup alerts
Admin Dashboard	Member count, claims, reimbursements, utilization, fund exposure, provider trends

APPENDIX E - CONTROL STATUS

This document is issued as MMS-DWP-001 Rev. 1 for corporate manual integration, app development briefing, operations alignment, and management review. It shall be updated once final app screens, payment channels, benefit caps, direct voucher mechanics, and pilot implementation rules are approved.

PART VI - PAWPOINTS SYSTEM AND MEMBER REWARDS

MMS-DWP-001 Digital Wellness Platform Framework - Rev. 1

PAWPOINTS SYSTEM OVERVIEW

This Part defines the MetroPaws PawPoints System, including points earning rules, redemption structure, equivalent member rewards, controls, anti-abuse measures, and dashboard requirements. It strengthens the Digital Wellness Platform by turning responsible pet ownership into a measurable, rewarding, and engaging member experience.

PawPoints shall be positioned as a loyalty and wellness engagement program. It shall not be described as cash, stored value, legal tender, insurance benefit, or guaranteed monetary entitlement unless a specific written program is later approved by the CEO and Finance.

SECTION 61: PawPoints Program Objectives

Purpose. To define why MetroPaws uses PawPoints as part of the membership ecosystem.

Policy. PawPoints shall promote responsible pet ownership, improve member retention, encourage preventive care, support community participation, and strengthen the perceived value of MetroPaws membership without creating uncontrolled financial liability.

Minimum Requirements

- Encourage members to complete pet profiles, wellness records, vaccinations, grooming, claims submission, referrals, renewals, and event participation.
- Reward engagement behaviors that strengthen the MetroPaws ecosystem.
- Create non-cash perceived value through recognition, privileges, rewards, and partner offers.
- Support tier differentiation between Standard, Deluxe, and Premium memberships.

Controls and Responsibilities

- CEO approves the PawPoints strategy.
- Operations administers the program.
- Finance reviews reward cost and liability exposure.
- Technology implements point logic in the app dashboard.

Related Records and References

- PawPoints Rules Matrix
- PawPoints Ledger
- PawPoints Redemption Register
- Member Dashboard

SECTION 62: PawPoints Currency and Value Principle

Purpose. To define how PawPoints shall be understood by members and staff.

Policy. PawPoints are loyalty points used for MetroPaws rewards, recognition, promotions, partner privileges, and selected member benefits. PawPoints have no cash value unless a specific reward conversion is approved and published by MetroPaws.

Minimum Requirements

- PawPoints shall not be exchangeable for cash by default.
- PawPoints may be redeemed only for approved rewards in the current reward catalog.
- MetroPaws may revise PawPoints rules prospectively with notice to members.
- Expired, forfeited, reversed, or fraudulently obtained points may be removed from the member account.

Controls and Responsibilities

- Marketing uses approved PawPoints language only.
- Customer Service explains PawPoints clearly.
- Finance validates any reward with monetary cost.
- Operations controls adjustments and reversals.

Related Records and References

- PawPoints Terms
- Reward Catalog

- PawPoints Adjustment Form MP-F-018

SECTION 63: PawPoints Earning Matrix

The following matrix may be used as the initial MetroPaws PawPoints earning structure. Actual values may be adjusted by management prior to launch based on cost, utilization, and member behavior.

Activity / Trigger	Standard	Deluxe	Premium	Control / Notes
New Membership Activation	100 pts	200 pts	400 pts	One-time upon paid activation
Annual Membership Renewal	150 pts	300 pts	600 pts	Issued after confirmed renewal payment
Complete Member Profile	25 pts	50 pts	75 pts	One-time per member account
Complete Pet Profile	25 pts per pet	40 pts per pet	60 pts per pet	May be capped per account
Upload Vaccine Record	30 pts	50 pts	75 pts	Subject to document review
Approved Vet Claim	20 pts	40 pts	60 pts	One award per approved claim
Approved Grooming Claim	10 pts	25 pts	40 pts	One award per approved claim
Approved Wellness Reminder Completion	10 pts	15 pts	25 pts	For app-confirmed action only
Attend MetroPaws Event	50 pts	100 pts	150 pts	Attendance must be verified
Successful Member Referral	100 pts	200 pts	350 pts	Issued after referred member activation
Pet Birthday Bonus	20 pts	30 pts	50 pts	Once per registered pet per year
Partner Campaign Bonus	As approved	As approved	As approved	Campaign-specific mechanics required

SECTION 64: PawPoints Tier Multipliers

Purpose. To differentiate the rewards experience by membership tier.

Policy. MetroPaws may apply tier multipliers to selected activities so that higher-tier members receive stronger engagement rewards without necessarily increasing direct reimbursement cost.

Minimum Requirements

- Standard members receive base earning rates.
- Deluxe members may receive enhanced points on claims, renewals, and events.
- Premium members may receive the highest points, priority redemption windows, and exclusive rewards.
- Multipliers shall be configured only for approved activities and shall not apply retroactively unless approved.

Controls and Responsibilities

- CEO approves multipliers.
- Finance reviews reward cost impact.
- Technology configures tier-based logic.
- Operations validates earning records.

Related Records and References

- PawPoints Rules Matrix
- Membership Tier Rules
- PawPoints Ledger

SECTION 65: PawPoints Reward Catalog and Equivalent Member Rewards

The following reward catalog provides a practical starting point for MetroPaws. Rewards are intentionally designed to balance member excitement with controlled company cost.

Points Required	Reward Name	Equivalent Member Value	Estimated Cost to MetroPaws	Notes / Conditions
250 pts	Digital Pet Wellness Badge	PHP 150 perceived value	PHP 0-10	Digital-only reward; low-cost engagement
500 pts	Pet Birthday Digital Certificate	PHP 250 perceived value	PHP 0-20	May include downloadable certificate
750 pts	Priority Claim Review Token	PHP 300 perceived value	Operational cost only	One-time priority processing subject to queue rules
1,000 pts	MetroPaws Pet ID Tag Discount	PHP 300-500 perceived value	PHP 100-200	May be MetroPaws-branded
1,500 pts	Grooming Cashback Booster	PHP 150-250 value	PHP 150-250	Adds approved cashback on one grooming claim
2,000 pts	Vet Consultation Cashback Booster	PHP 200-300 value	PHP 200-300	Adds approved cashback on one consultation claim
2,500 pts	MetroPaws Welcome Merchandise Item	PHP 500-800 perceived value	PHP 250-400	Examples: tote bag, pet bandana, sticker pack
3,000 pts	Event Pass / Pet Wellness Seminar Access	PHP 500-1,000 perceived value	Variable	Subject to event capacity

SECTION 66: PawPoints Redemption Rules

Purpose. To define how members exchange PawPoints for approved rewards.

Policy. Members may redeem PawPoints through the app or approved customer service channel for rewards listed in the active MetroPaws Reward Catalog, subject to availability, eligibility, membership status, and program terms.

Minimum Requirements

- Only active members may redeem PawPoints.
- Points must be available and not pending, expired, frozen, or under dispute.
- Redemption shall be final once processed unless MetroPaws approves reversal.
- Some rewards may be limited by tier, campaign period, area, partner availability, or inventory.
- MetroPaws may substitute an equivalent reward if the selected reward becomes unavailable.

Controls and Responsibilities

- Operations processes redemption requests.
- Finance validates rewards with direct cost.
- Marketing maintains reward catalog.
- Technology deducts points and updates the ledger.

SECTION 67: PawPoints Expiry, Forfeiture, and Reversal

Purpose. To manage inactive, expired, or improperly earned points.

Policy. PawPoints may expire, be forfeited, or be reversed under defined conditions to protect the integrity and sustainability of the program.

Minimum Requirements

- Suggested expiry: points expire 12 months after issuance or at membership expiration if not renewed within the grace period.
- Fraudulent, duplicate, reversed, cancelled, or refunded transactions shall result in points reversal.
- Suspended accounts may have points frozen pending investigation.
- Expired points shall not be reinstated unless approved by management.

Controls and Responsibilities

- Operations controls expiry and reversals.
- Finance reviews material point liability impact.
- CEO approves exceptional reinstatement.
- Technology automates expiry logic where possible.

SECTION 68: PawPoints Fraud and Abuse Controls

Purpose. To prevent misuse of the rewards system.

Policy. MetroPaws shall monitor PawPoints activity for suspicious earning, redemption, referral abuse, duplicate claims, fake transactions, fake events, account manipulation, and coordinated misuse.

Minimum Requirements

- Referral points shall be issued only after verified paid membership activation.
- Claim-based points shall be issued only after claim approval.
- Event points shall require attendance verification.
- PawPoints related to rejected or reversed claims shall be removed.
- Accounts with suspicious activity may be reviewed, frozen, suspended, or terminated according to policy.

Controls and Responsibilities

- Operations monitors member activity.
- Finance reviews rewards cost anomalies.
- Technology supports duplicate and abnormal behavior detection.
- CEO approves serious disciplinary actions.

SECTION 69: PawPoints Dashboard and Reporting

Purpose. To provide member transparency and management control.

Policy. The platform shall provide a PawPoints dashboard for members and an administrative report for MetroPaws management.

Minimum Requirements

- Member dashboard shall show current balance, pending points, earned points, redeemed points, expired points, and available rewards.
- Admin dashboard shall show total points issued, redeemed, expired, outstanding balance, reward cost, top earners, top rewards, and liability estimate.
- PawPoints activity shall be traceable to source transactions, campaigns, events, referrals, or manual adjustments.

Controls and Responsibilities

- Technology implements dashboards.

- Operations validates transaction accuracy.
- Finance monitors outstanding liability.
- CEO reviews program effectiveness.

SECTION 70: PawPoints Launch Strategy

Purpose. To define a practical rollout path for PawPoints.

Policy. MetroPaws shall launch PawPoints in phases, starting with low-cost engagement rewards and expanding to partner-funded or co-funded rewards when the partner network grows.

Minimum Requirements

- Phase 1: Digital badges, profile completion points, claim points, referral points, birthday bonus, and simple merchandise rewards.
- Phase 2: Cashback boosters, event rewards, limited vouchers, priority processing, and partner promotions.
- Phase 3: Partner-funded rewards, premium redemption marketplace, VIP experiences, and tier-exclusive rewards.
- PawPoints costs shall be reviewed before launching high-value rewards.

Controls and Responsibilities

- CEO approves phase progression.
- Marketing proposes launch campaigns.
- Finance approves reward budget.
- Technology configures phased release.

APPENDIX F - SUGGESTED PAWPOINTS MEMBER-FACING EXPLANATION

Use this simplified language for website, app, and customer service communications:

PawPoints are MetroPaws loyalty points that reward responsible pet ownership. Members may earn PawPoints by joining, renewing, completing pet profiles, uploading wellness records, using approved benefits, attending MetroPaws events, and referring new members. PawPoints may be redeemed for approved rewards, member privileges, selected wellness boosters, merchandise, event access, and future partner offers. PawPoints are not cash and are subject to MetroPaws program terms.

APPENDIX G - RECOMMENDED STARTING REWARD BUDGET CONTROLS

Control Area	Recommended Rule
Monthly Reward Budget	Set a monthly budget ceiling based on active member count and membership revenue.
High-Value Rewards	Require CEO and Finance approval before release.
Cashback Boosters	Limit by category, frequency, and wallet balance.
Merchandise Rewards	Use batch purchasing and inventory tracking.
Event Rewards	Prioritize partner-sponsored or low-cost community events.
Program Review	Review points issued, redeemed, expired, and cost every month during launch.

APPENDIX H - PAWPOINTS SAMPLE MEMBER JOURNEY

- Member joins MetroPaws Deluxe and receives 200 activation PawPoints.
- Member completes profile and pet profile, earning additional PawPoints.
- Member uploads vaccination record and receives document-based PawPoints after approval.
- Member submits a grooming claim and earns claim activity PawPoints after approval.
- Member refers a new paying member and receives referral PawPoints.
- Member redeems points for a grooming cashback booster or MetroPaws reward item.
- Dashboard updates automatically and records the full PawPoints history.
